

WORK JACKET

Article No.: 0608AE01

Aegis® Molten Metal Workwear is intended to be used in areas where this continuous exposure to sparks and splashes of aluminum & iron.

Aegis® Workwear is the solution to meet your FR protective molten metal apparel needs. Because of its unique ability to shed molten aluminum as well as cryolite, these specialized molten metal protective garments are used extensively throughout the aluminum casting industry. In fact you can cast off that cryolite knowing you are safe and secure within your workwear.

Tencate Oasis™ is an innovative protective fabric that offers incredible softness, has a lightweight feel and is flexible. It is designed to deliver premium protection against molten metal splash, radiant heat, flame and other smelting hazards. An outstanding value and the best choice among thermal resistant, metal-shedding fabrics, it has been chosen by leading aluminum manufacturers, worldwide, for its protection, comfort and durability.

- **Inherently flame-resistant** - Flame-resistant, metal shedding protection is built into the fabric, so it won't wash or wear out.
- **Comfortable to wear** - Engineered with an innovative fiber blend, this fabric is designed for excellent softness & flexibility.
- **Outstanding value** - Long-lasting protection withstands rugged use and repeated industrial launderings.

COMPOSITION

Fabric: Oasis® OS 1000
Fiber Blend: 50% Lenzing FR®, 40% wool, 10% Nylon
